

A Resourceful Furniture Store

At Your Service With the New Ideas

Ready With New Stocks, New Ideas and Reliable Quality, But Above All, Ready With Plain Facts and Fair Prices

This store is at your service, not only in the selling and delivering of goods, but also with suggestions and, if desired, advice on the vexing problems that often arise about furnishing a new home complete, refurnishing the old or making additions to the furnishings of a single room, so that the existing decorative scheme may not be destroyed. "Resourceful"—that is what we mean this furniture store shall be.

We anticipated your household wants for fall and winter months ago and evidence of our untiring effort is plainly shown by the thousand and one new and better suggestions in furniture that are now ready. Nothing has been left undone that would add to confidence in our ability to make this store "resourceful"—helpful—economical in the saving of your time and ours. Prices stand fairly and squarely on their merits.

50 Patterns in Metal Beds

The size of the new stocks may be judged somewhat from the great number of brass and iron beds embraced in that particular section of the store. Over half a hundred different styles are shown in metal beds alone.

Comparison is the true test of value—we invite it cheerfully. We are agreed to make this statement by the self-evident fact that a temptingly low price often compels an unwise purchase. There shall be no misrepresentation of facts or figures here. Let comparison be the silent argument that decides when you buy and where you buy.

Quality for the Dining Room

That enduring worth is a prime requisite in dining room furniture goes without saying, yet appearances will often warp one's better judgment. Be guided largely by reputation when you buy—and be safe. Every piece of dining room furniture in this great stock will bravely stand the test of time—we sell no other kind.

Gift Hints for September Brides

Our fall and winter stocks offer a speedy and inexpensive solution of the problem "what to give the September bride." And the gift will be one of enduring worth—something that will keep memory green for long years to come.

Ladies' House Dress Wrappers

Many ladies prefer the old style Wrappers to the House Dress, and scarcely any firm is now making a Wrapper that is in any way satisfactory.

We have just received a line of House Dresses that is made to take the place of the Wrapper. These Dresses are made in a good style and are more like a House Dress in design, but they have a wide, shirred, elastic belt in back, which gives the extra waist and hip fullness, thus making a Dress that is especially adapted to ladies with full hips.

See this line of House Dresses. They will surely interest you.

These Dresses are made from the best quality Percale in good Grays, Navy Blues, Stripes and Black and White Checks.

These Dresses, in the best quality Percales, sell for only \$1.50. See this new House Dress Wrapper.

Advance Suit Showing

Many New Notes in the Styles for Fall and Winter Wear

Never before have the styles been so becoming to all figures. Suit models come in great variety, including three major types and the plain tailored effects, the outing or sport designs and dressier models.

Jackets of suits are either single or double breasted. In many of them there is a pronounced flare below the waist.

The sport or outing suits are very charming with their high collars and simple sleeves, and with two pleats, shirring and belts at the waist line. Some of the dressier models possess large collars that either button close or lie flat. When open these coats give a shoulder cape effect.

In coats a wide range of types make the fall styles very interesting to every figure. Many women will select the loose type with sweeping fullness, large roomy sleeves and generous cuff; others will prefer the belted type which is just as popular. The large deep collar are among the style features.

Separate Skirt Models

We are now showing a large line of the new Fall Skirt Models. Every indication is that this will be a large Separate Skirt season, especially in the plain tailored styles and in the plain colors. Blues are very popular. Browns and Greens come next, and Black as usual is more popular than ever.

Serges will be the most popular material. These are a cloth that for service cannot be duplicated.

At \$5.00 we are showing a large variety of different styles and models.

At \$5.00 and \$5.75 is a large variety of the season's most popular models. These are in Poplins and Serges. Some of the best models are in a fine French Serge.
